\* Amounts based on pledges, to be confirmed at the time of payment including possible effect of exchange rate fluctuation

\*\* Based on percentage increase from previous year's contribution

\*\*\* full share as per the Environment Fund Voluntary Indicative Scale of Contributions (VISC)

USA does not participate in VISC and is not a member of any regional group. However, since USA attends Western Europe & Other Group meetings as an observer, their contributions are reported as part of the WEOG summary.

Supported by the Environment Fund, The *Frontiers Report* identifies emerging environmental issues that, while currently localized or small-scale, could escalate into global crises if left unaddressed. The 2025 edition, **The Weight of Time – Facing a new age of challenges for people and ecosystems**, highlights key challenges and stresses the importance of early intervention.
