Quiz leaderboard

7. (IED) By 2060, material extraction is expected to rise by:

8. (IED) How many tons of plastic are produced each year?

6 ✓

430 tons

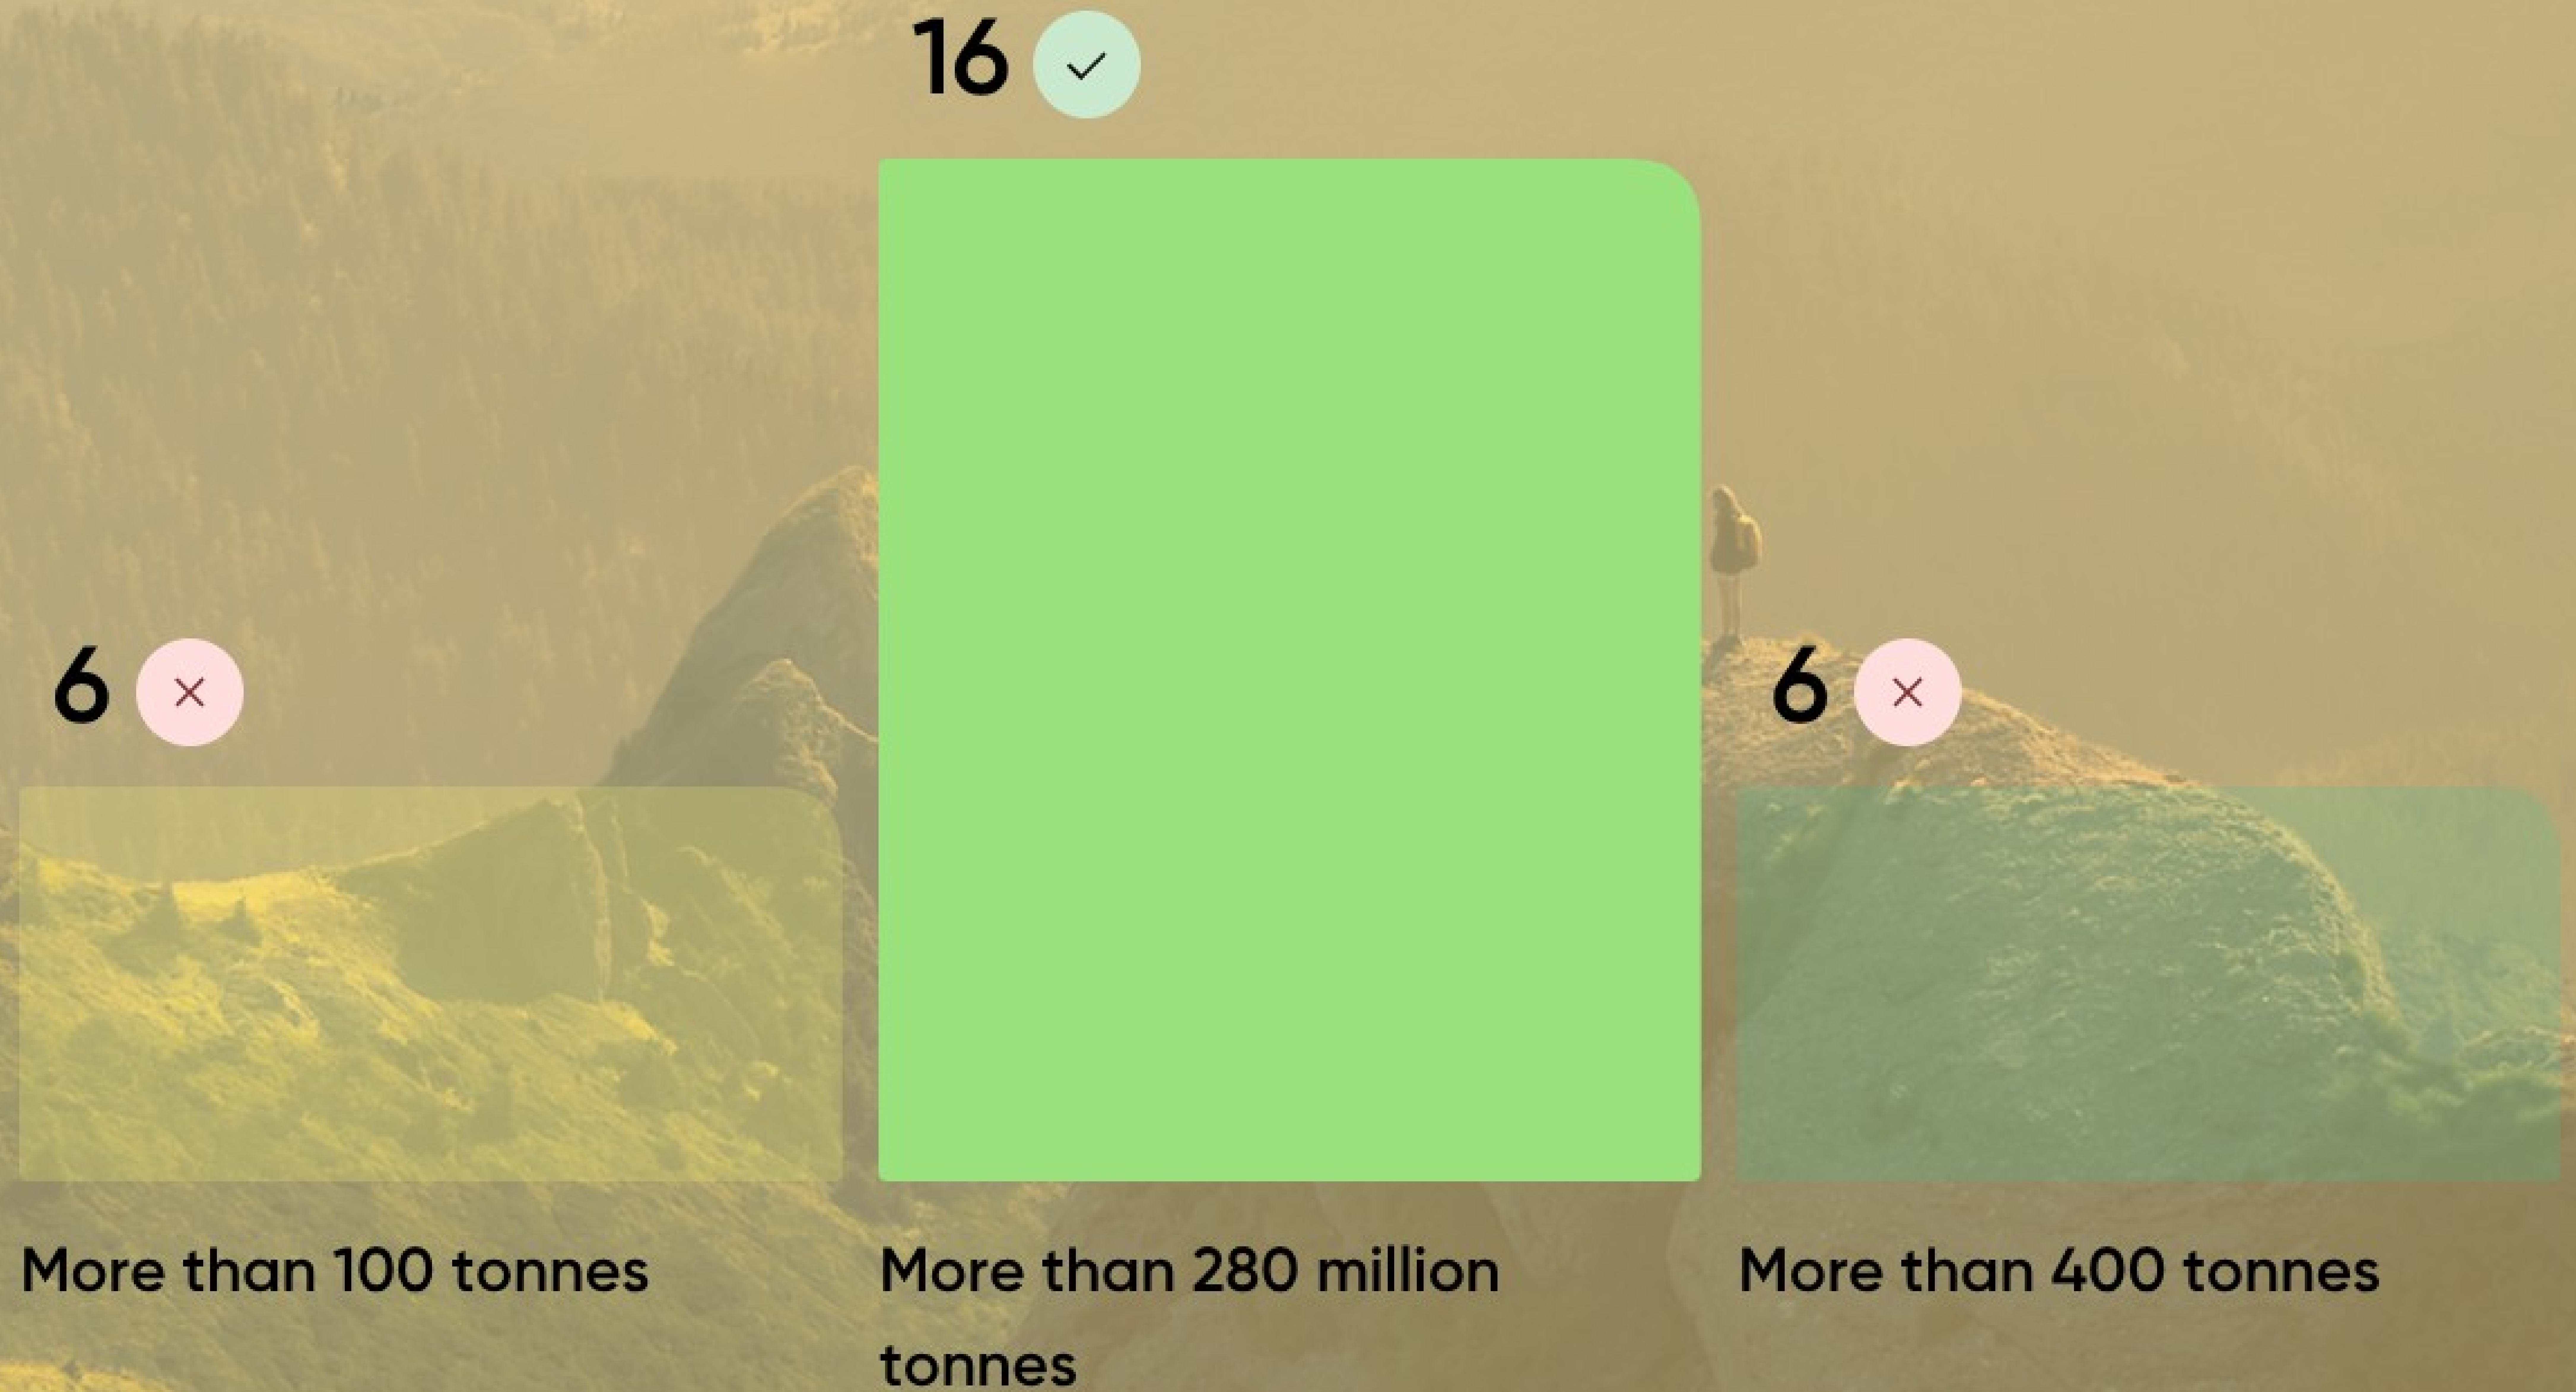

22 ✗

670 tons

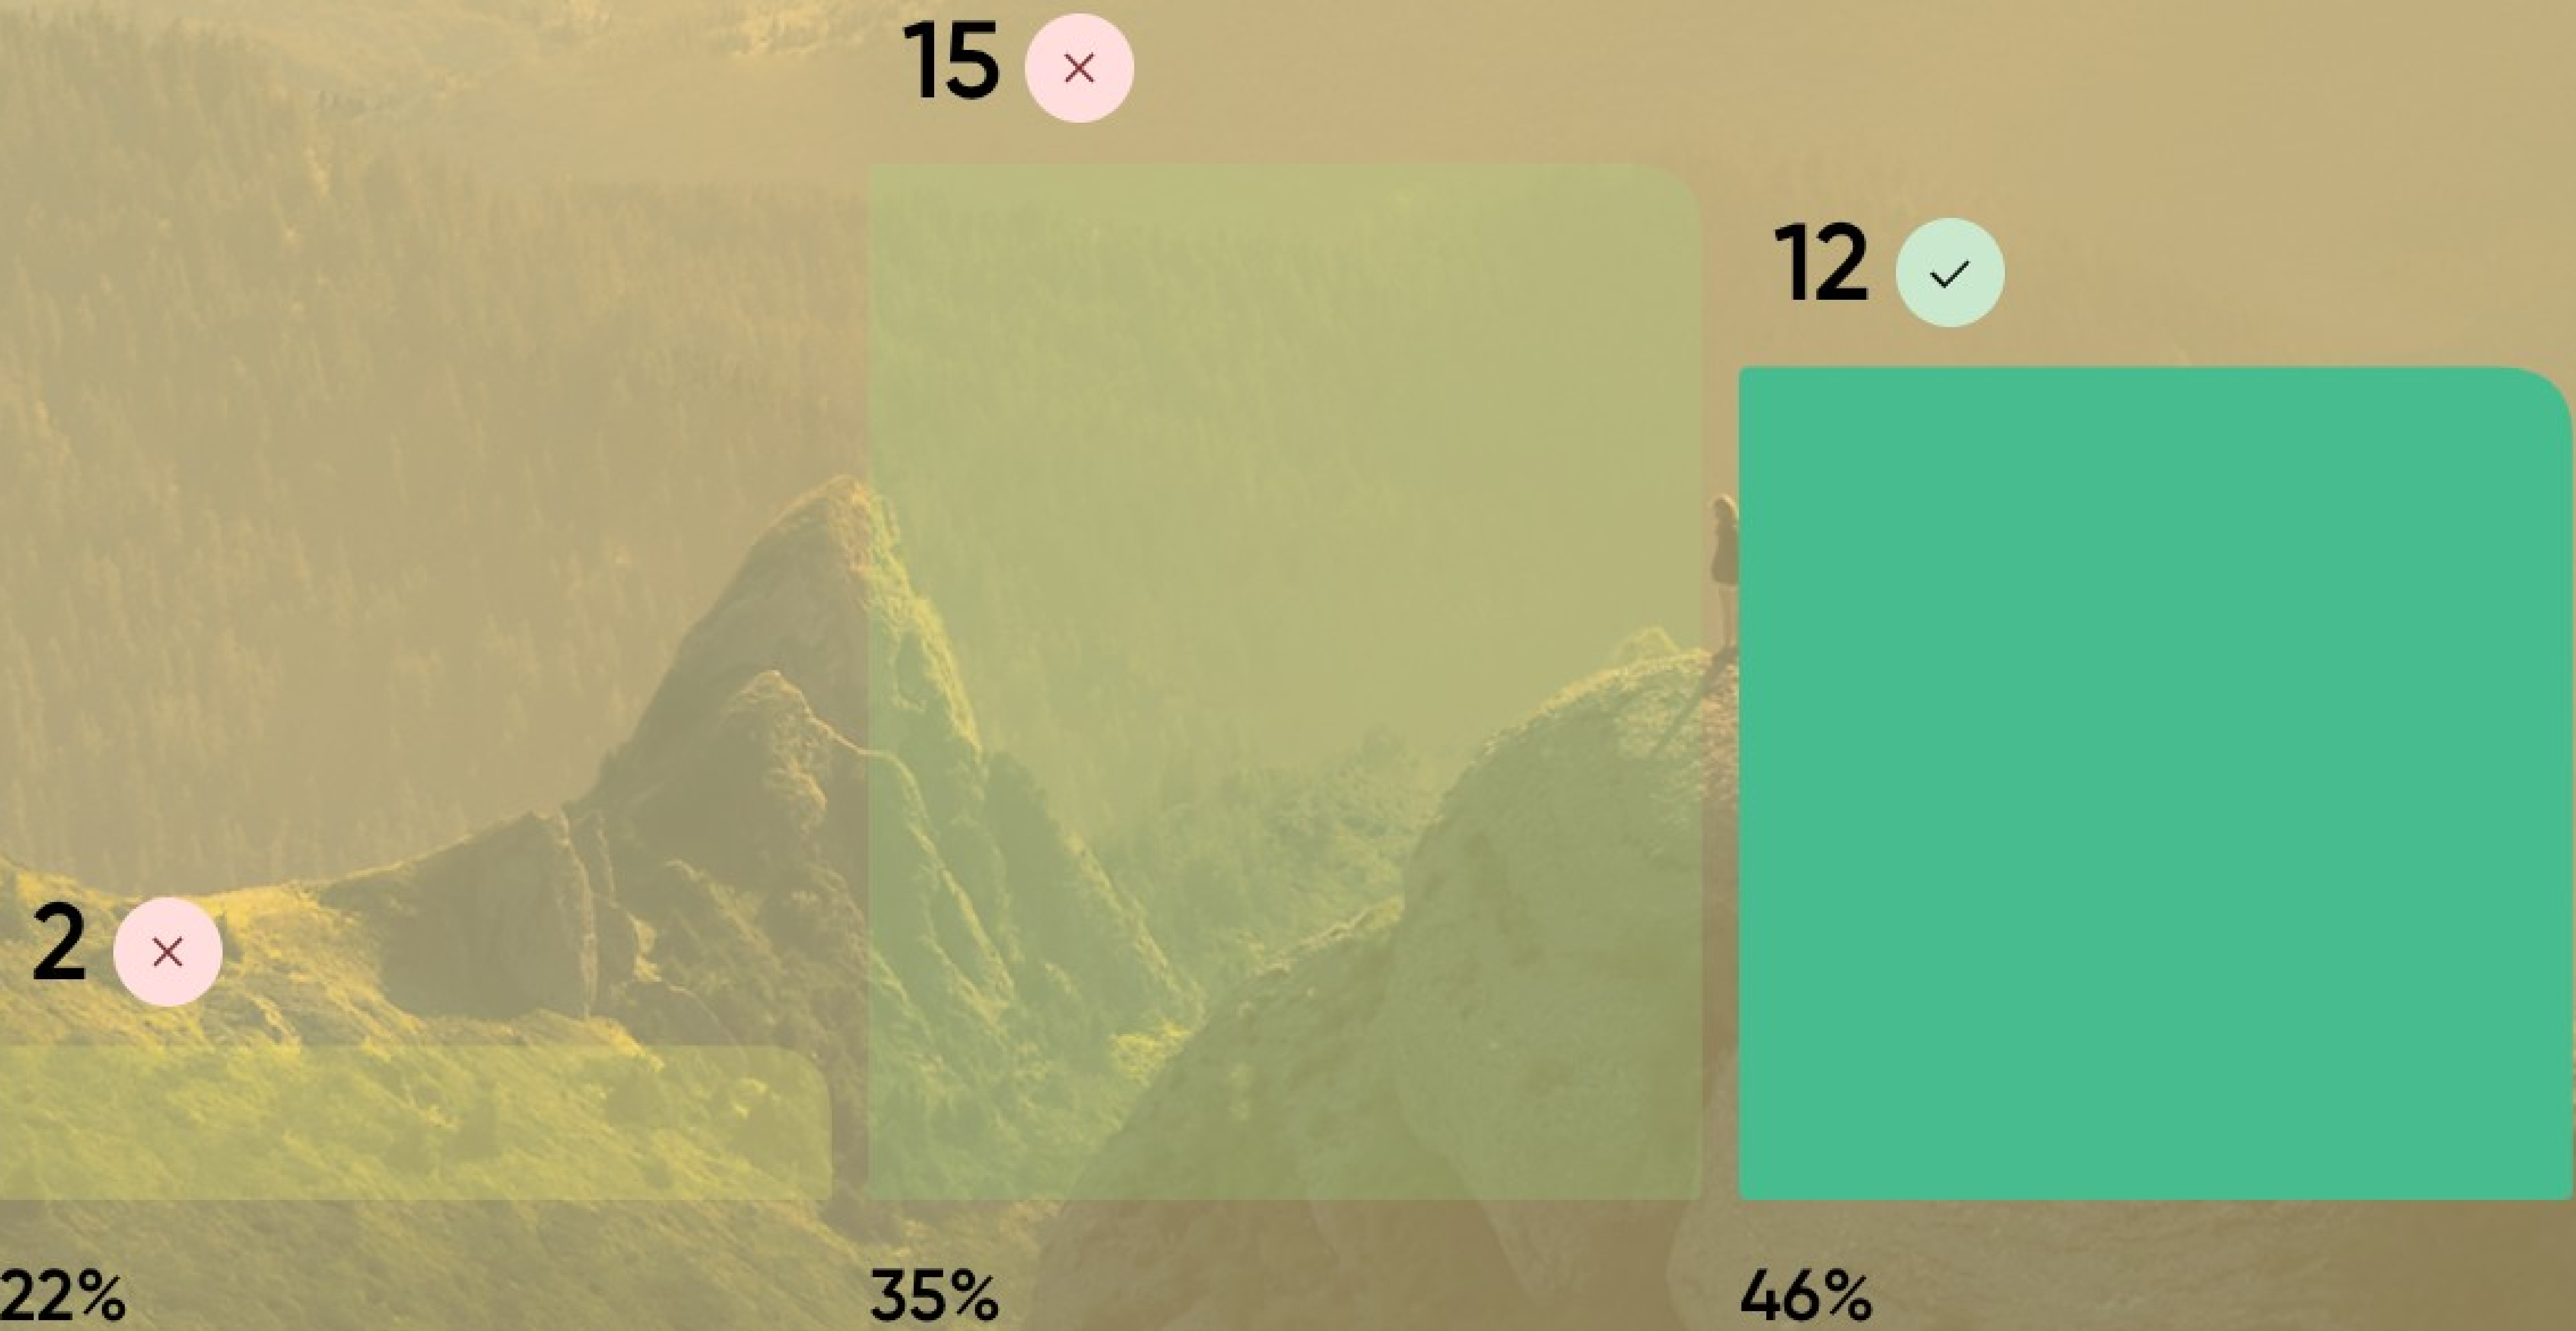

1 ✗

290 tons

9. (IED) How many tonnes of short-lived plastic products become waste every year?

10. (IED) What percentage of plastic waste is landfilled?

Quiz leaderboard

11. Which Division and Office were merged to form the New Office of Science?

3 ✕

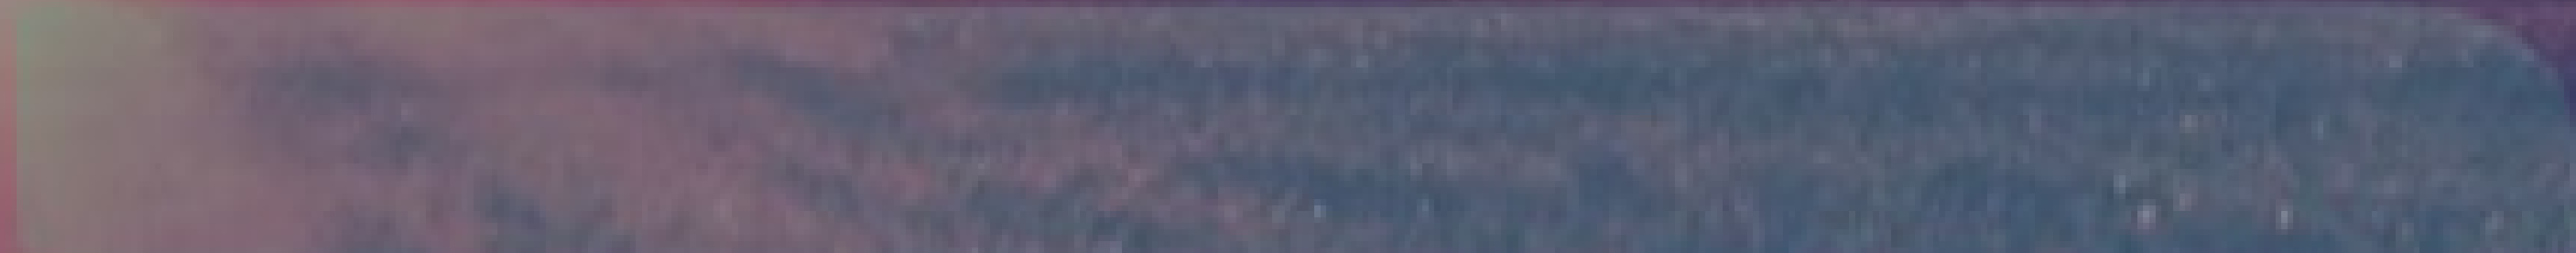

Law Division and Chief Scientist Office

13 ✓

Early Warning Assessment Division and Office of the Chief Scientist

1 ✕

Law Division and Chief Scientist Office

4 ✕

Climate Change Division and Chief Digital Office

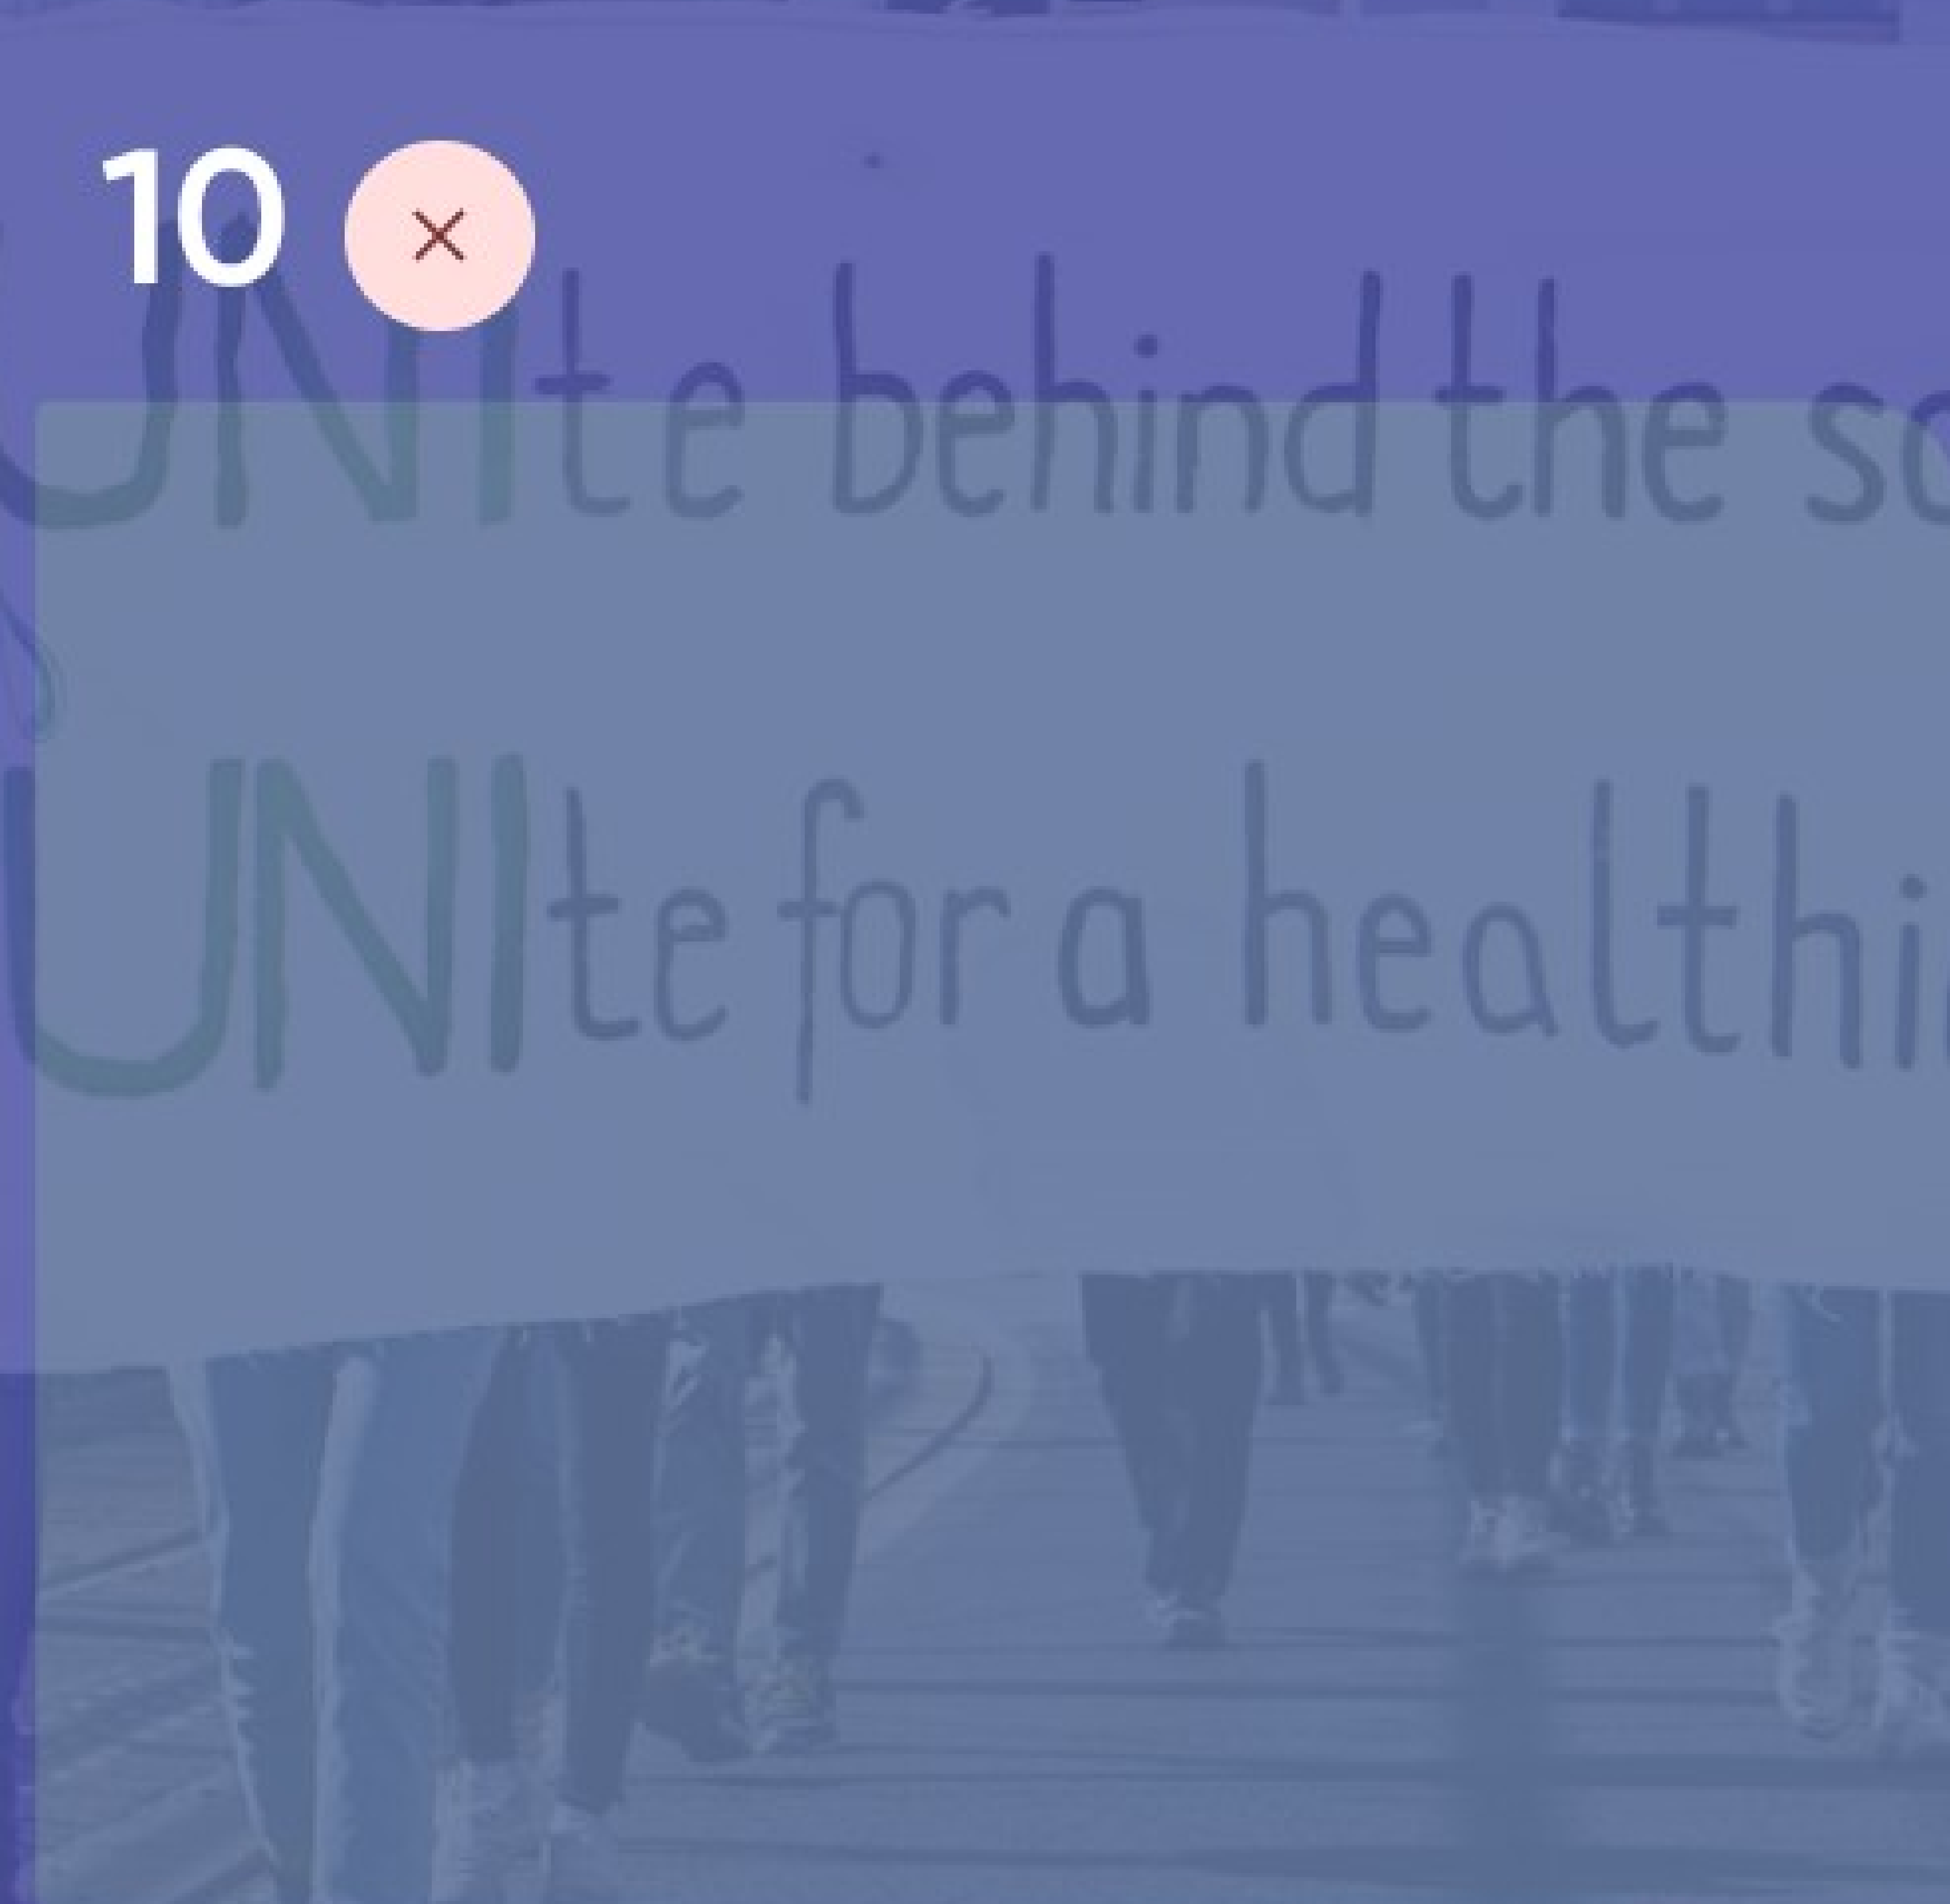

12. State the three main work areas for the Office of Science:

12 ✓

Strategy & Ops, Analytics &
Statistics, Evidence & Impact

10 ✗

Strategy, Analytics, Research &
Intelligence

2 ✗

Research, Intelligence and
Operations

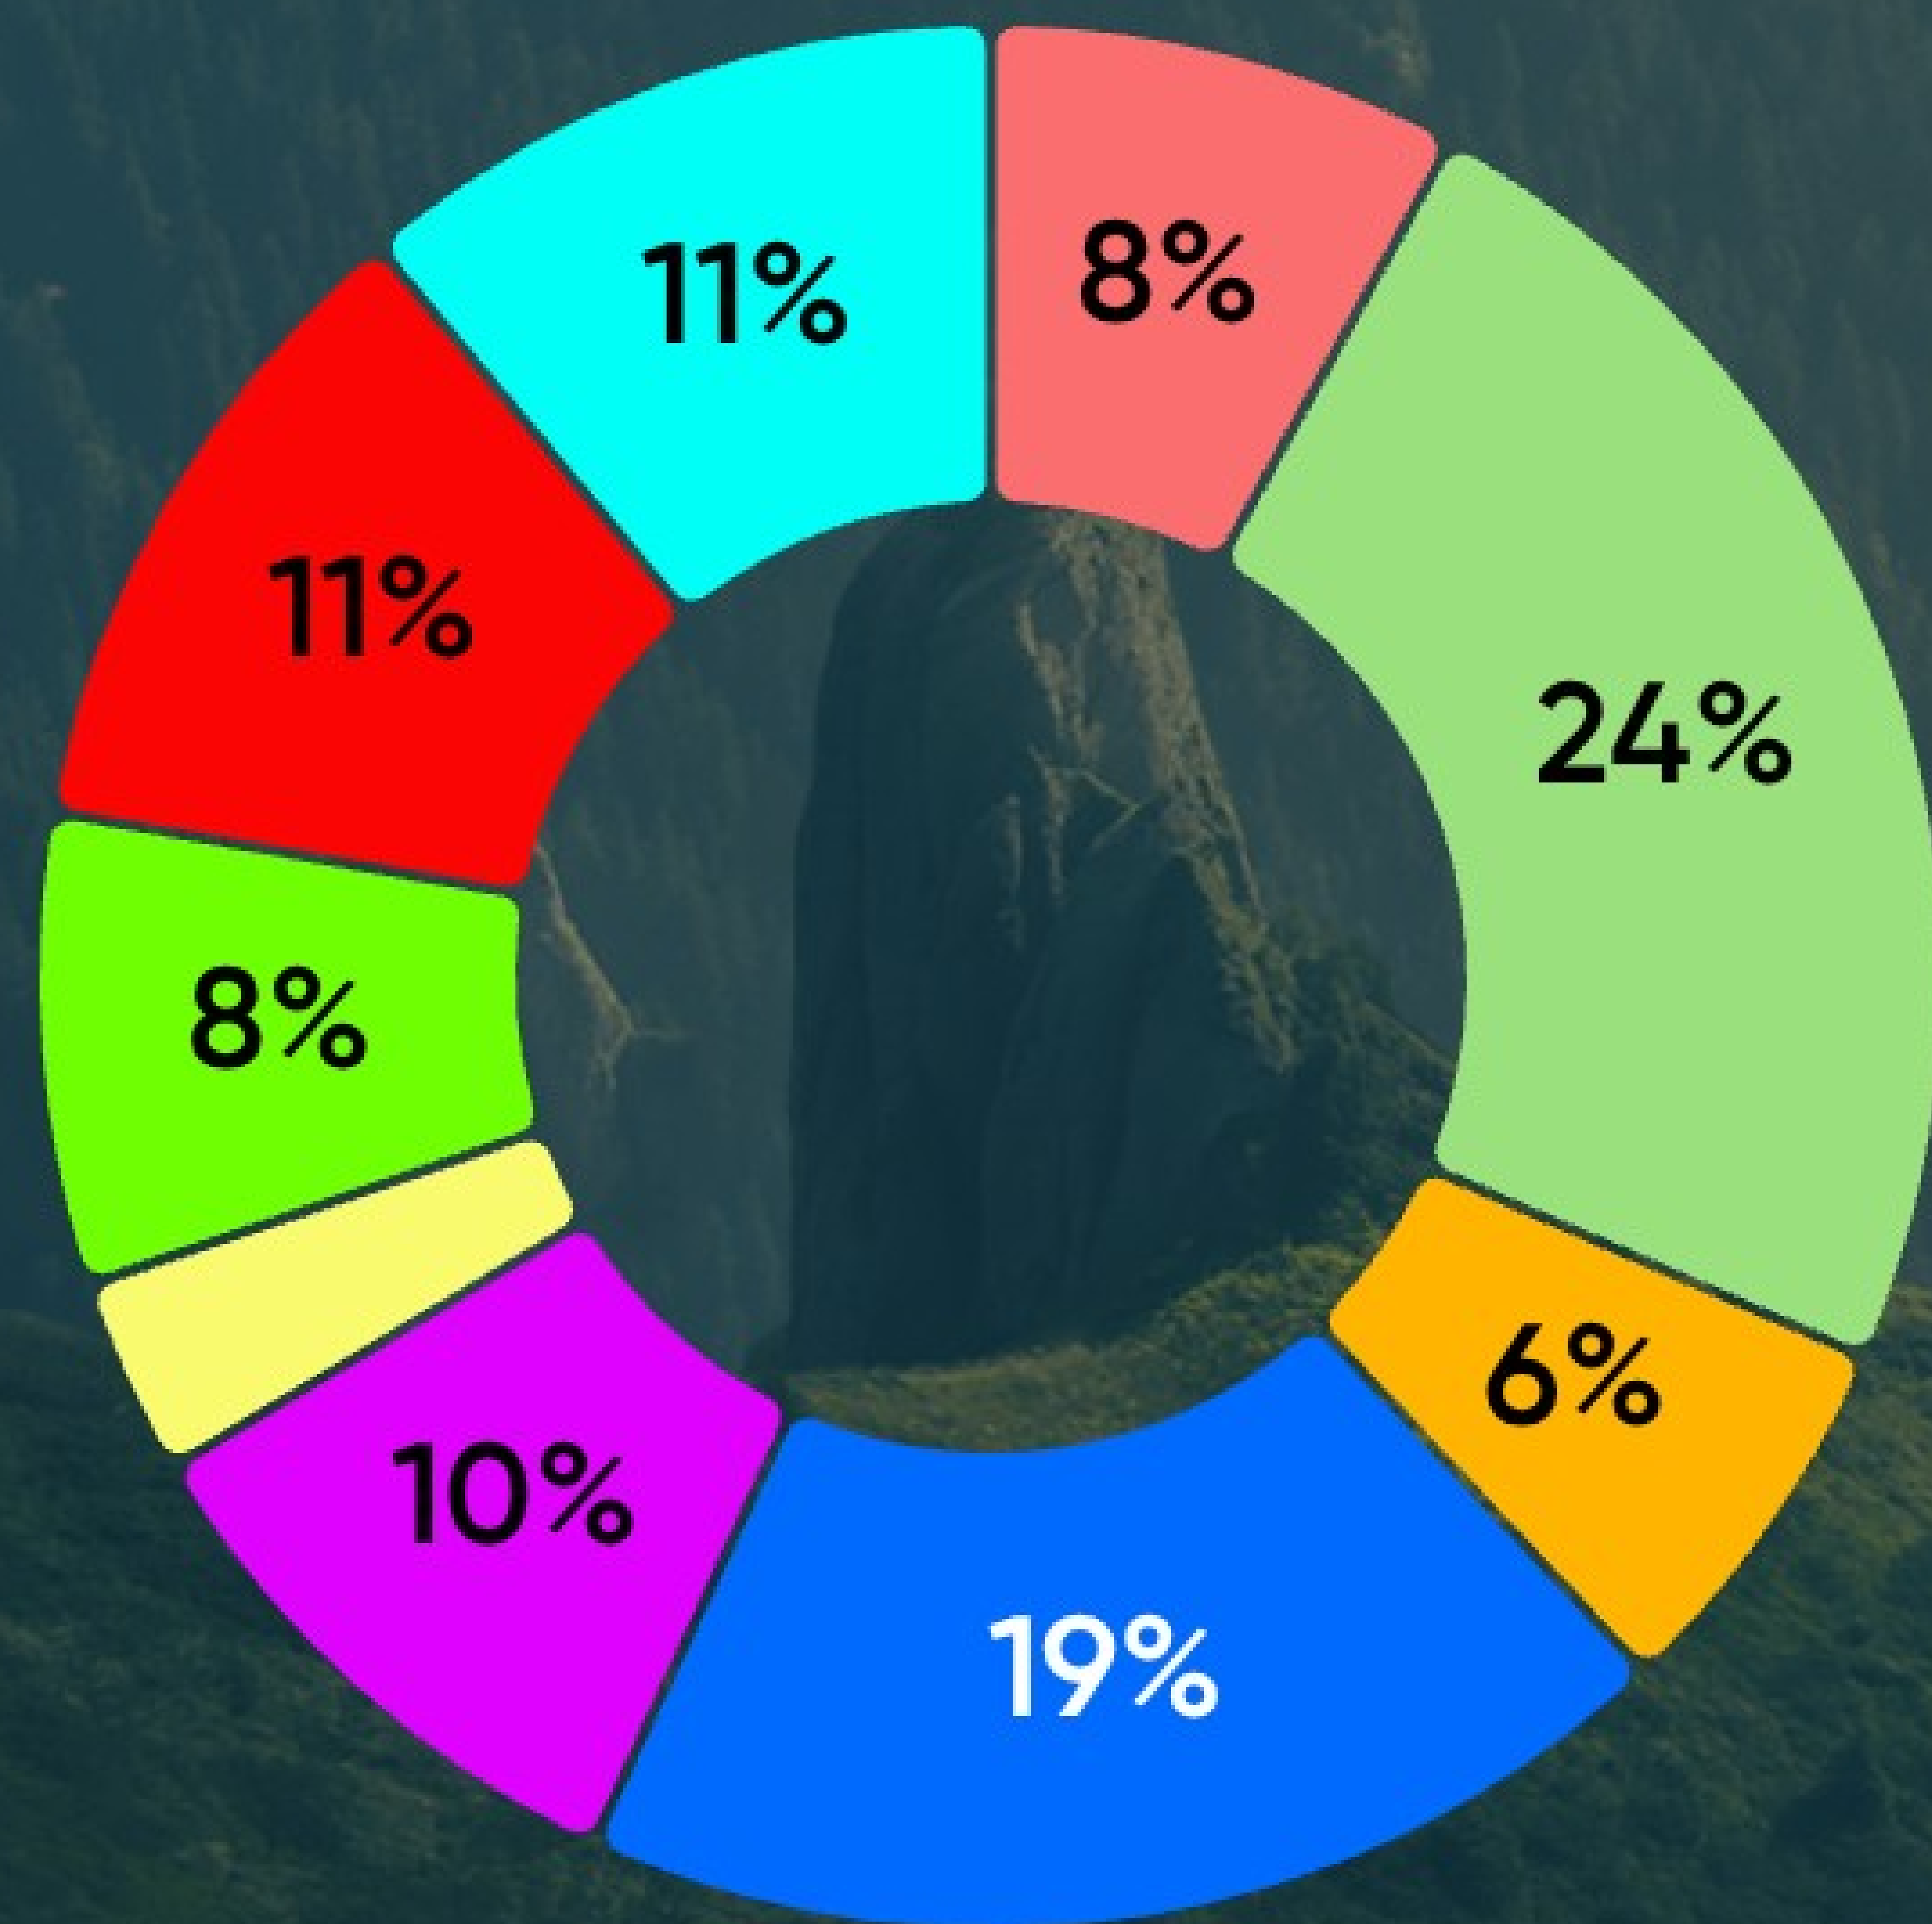

13. Why was the Office of Science established?

14. What Sub-Programme sits within the Office of Science?

15. (CDO) How can Digital Transformation best support your country? (select 3 options)

- 8% Support common data standards
- 24% Capacity building
- 6% Mobilise partnerships and resources
- 19% Knowledge sharing / best practices
- 10% Building AI applications for the environment
- 3% Greening digital public infrastructure
- 8% Support reporting for transparency and MEAs
- 11% Including environment in national digital transformation strategies
- 11% Building digital solutions for environmental action

16.(CDO) What is your biggest AI-related fear?

Security

Wrong information

AI replacing diplomats

Misinformation

That humans will lose
their job

fake information and
leak of personal and
private information

Security

Digital sscamming

16.(CDO) What is your biggest AI-related fear?

General AI leading to economic concentration

Loss of creativity

Inaccurate data

AI arms race

Abuse of Power of AI companies

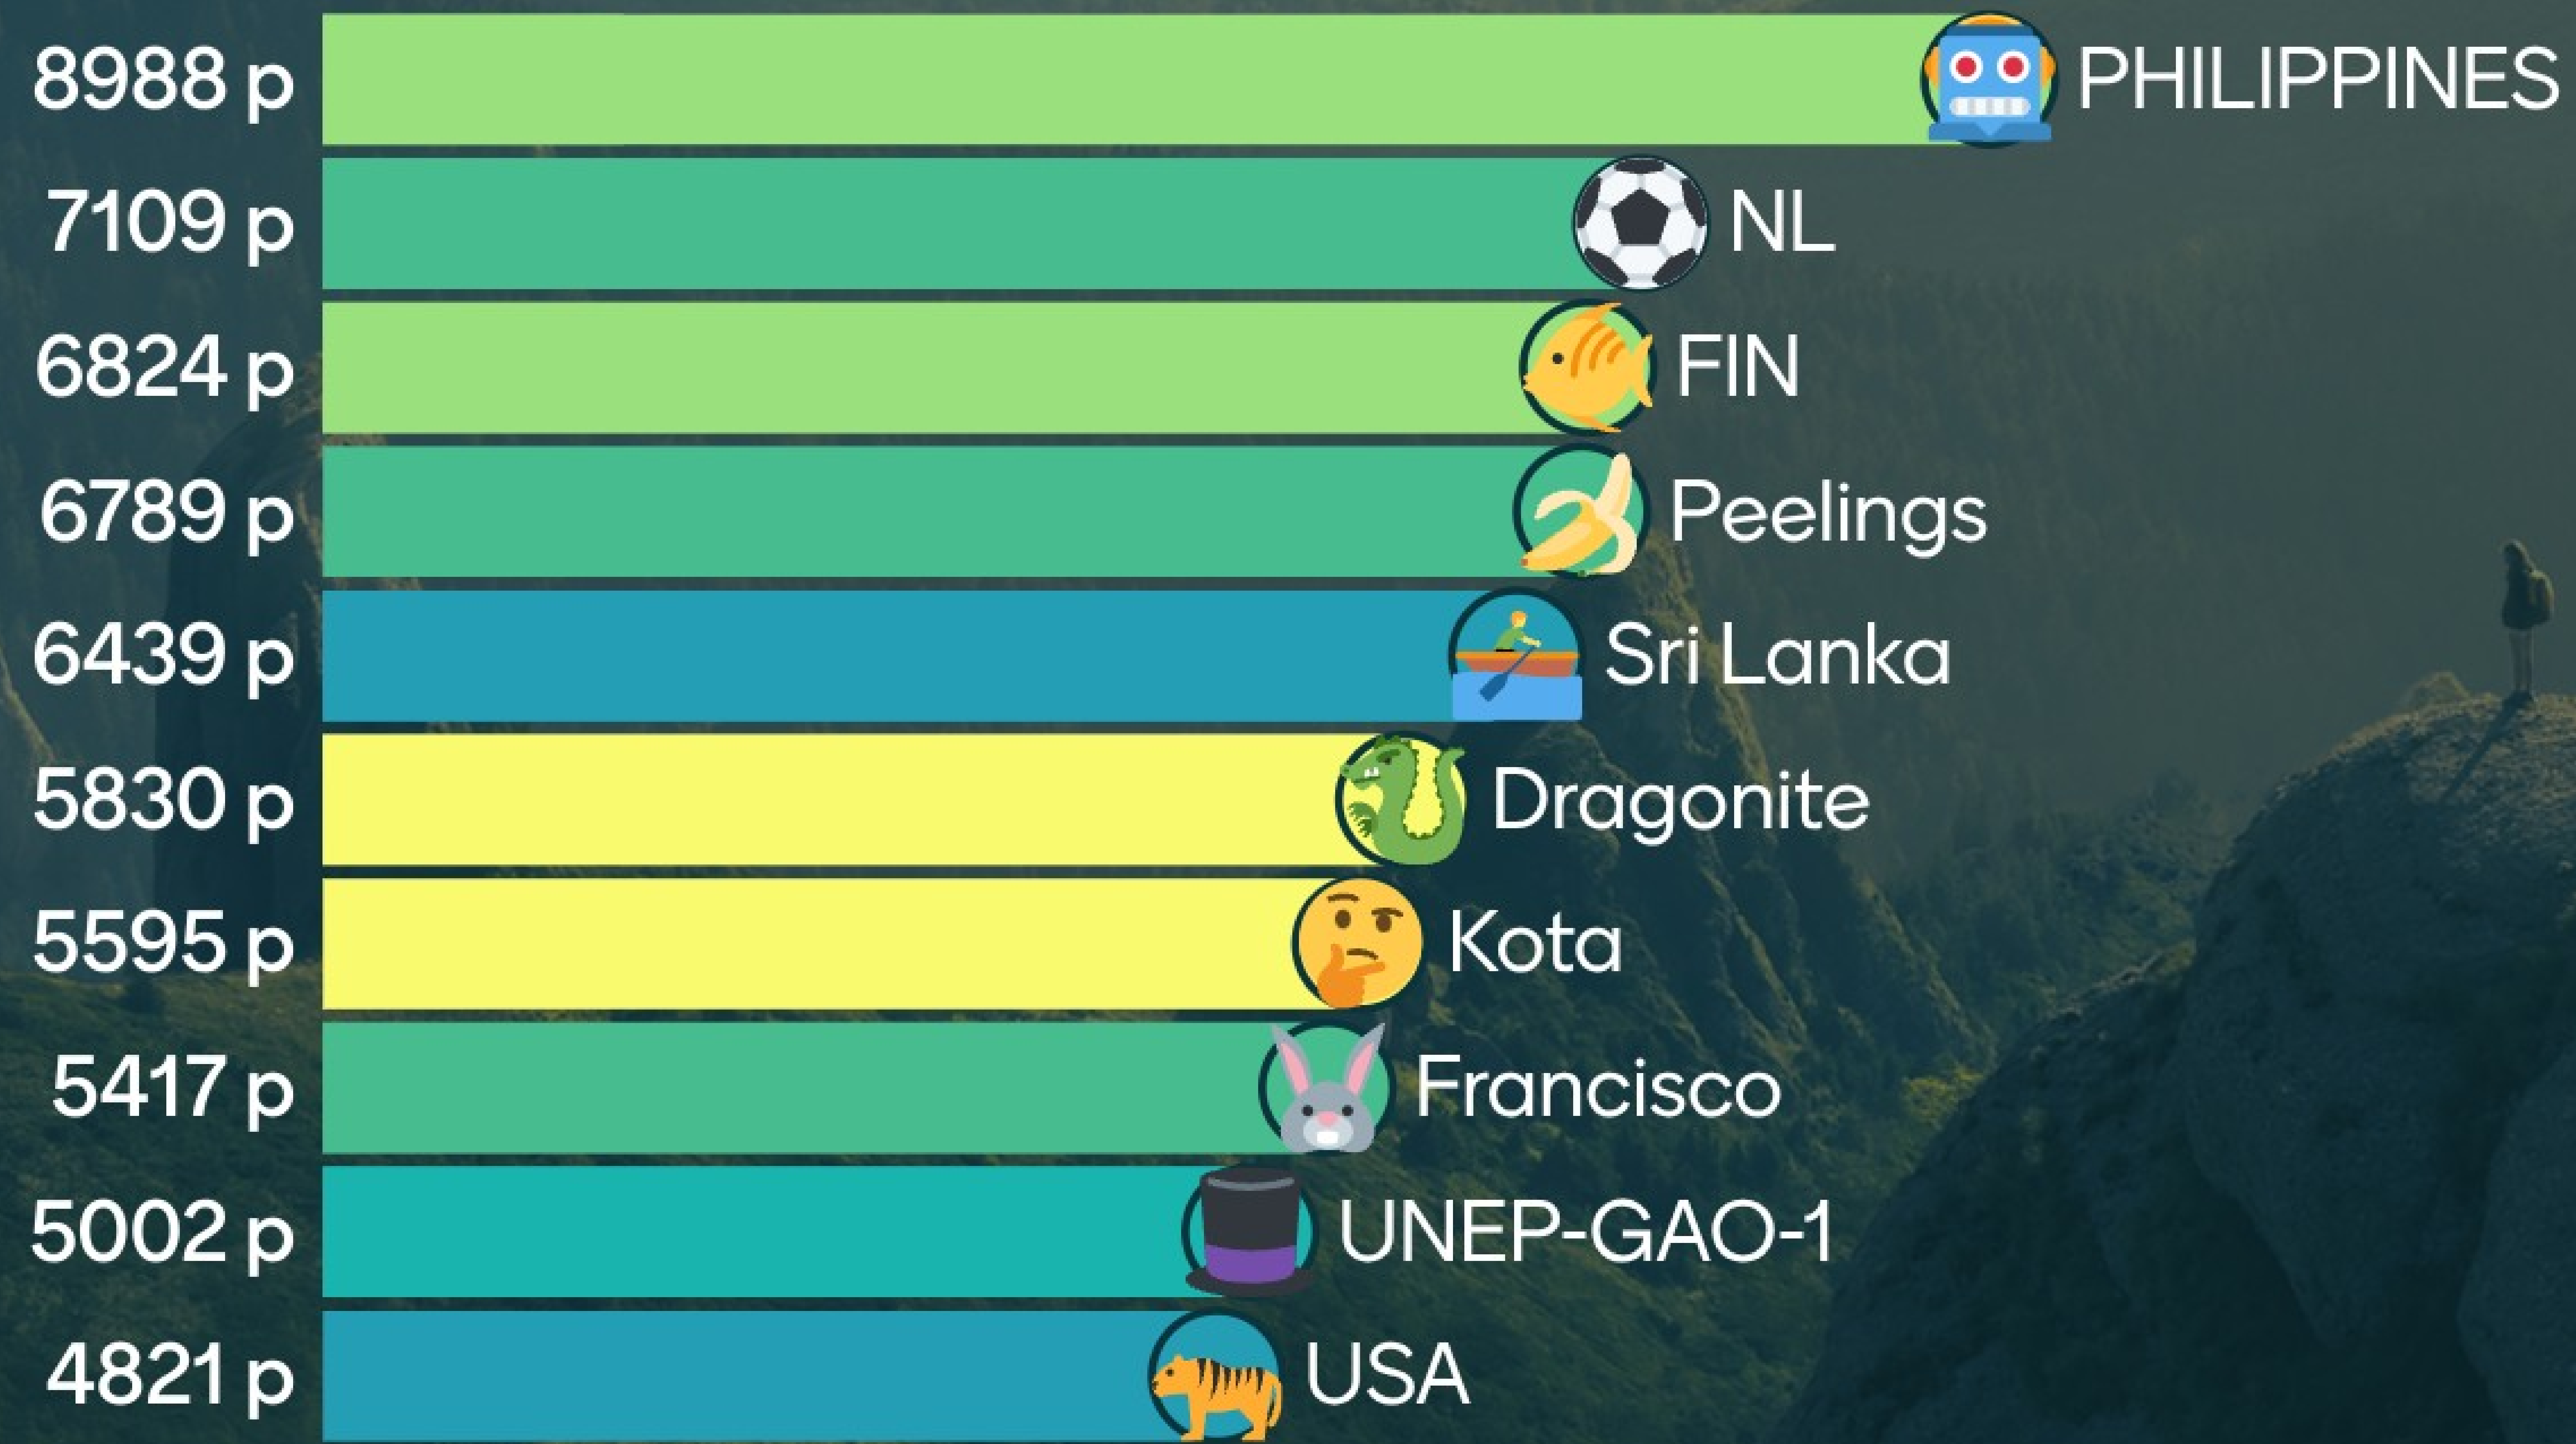

Overtaking what humans can do, resulting in job losses

my biggest environmental AI fear is that AI ends up accelerating unsustainable industrial practices and consuming so much energy itself that it worsens the climate crisis it's supposed to help solve.

17. (CDO) Could you benefit from training on AI for environment?
