

Issue Identification sheet for the WMA Consultation Desk

This sheet is intended to help WMA partners understand the challenges you face in managing mercury waste and to collect the information needed to provide the solutions you need. Please answer the following questions in as much detail as possible and send this file to the WMA email address (wastemanagement@exri.co.jp). Your response may be shared with WMA partners as needed to discuss potential approaches to support you.

(1) About yourself

Name	
Affiliation	
Email	
Type	☐ Government ☐ Industry ☐ Non-governmental organization ☐ Inter-governmental organization ☐ Academia / University ☐ Consultancy ☐ Other ()

(2) Challenges faced

Please describe the challenges you are facing in managing the mercury waste including specific waste streams at different stages of the waste management (e.g., collection, transportation, storage, treatment, disposal). You may also wish to provide legal challenges as needed.

--

(3) Expertise/Technical solutions needed

Feel free to provide any additional details regarding the type of solutions you are seeking including any specific needs or requirements. However, please be noted that the Waste Management Area is a multi-stakeholder and voluntary initiative and therefore not an institution to provide financial support.
