International
Conference on
Nutrition – 19-21
November 2014**

CFS 41 – POLICY ROUNDTABLE II

“SUSTAINABLE FISHERIES AND AQUACULTURE FOR FOOD SECURITY AND NUTRITION”

- Recognized the contribution of fisheries and aquaculture to food security and nutrition, as a primary source of protein and essential nutrients, and as a provider of income and livelihoods.

- a) Give to fish the position it deserves in food security and nutrition strategies, policies and programs
- b) Promote sustainable fisheries and aquaculture policies and management and design climate change adaptation strategies for food security and nutrition
- c) Seize the opportunities and address the challenges of aquaculture development

- d) Recognize the contribution of small-scale fisheries
- e) Enhance fish market's and trade's contribution to food security and nutrition
- f) Improve social protection and labour rights
- g) Fully address the gender dimension of the fisheries and aquaculture sector

- h) Integrate food security and nutrition concerns into fisheries and aquaculture-related policies and programs
- i) Furthermore the Committee invites FAO to:

Make explicit reference to fish resources fisheries and aquaculture as vital in combating hunger and securing nutritious food for everybody in all relevant documents on agriculture, food security and nutrition.

The Global Paradox;

1 Billion people Worldwide are starving

1 Billion people Worldwide are obese

**Fish/Seafood is the remedy to both
due to its nutritional values**
