### CONTRIBUTIONS AT REGIONAL LEVEL (in % of total funds requested)

### NUMBER OF COUNTRIES BY REGION (by status of their contribution)

- full share\*\*\* contributions
- other contributions
- unfunded

\* Amounts based on pledges, to be confirmed at the time of payment including possible effect of exchange rate fluctuation

\*\* Based on percentage increase from previous year's contribution

\*\*\* full share as per the Environment Fund Voluntary Indicative Scale of Contributions (VISC)

USA does not participate in VISC and is not a member of any regional group. However, since USA attends Western Europe & Other Group meetings as an observer, their contributions are reported as part of the WEOG summary.

### Global Environment Outlook 7

The **Global Environment Outlook - A Future We Choose** report, made possible by the Environment Fund, finds that investing in a stable climate, healthy nature, and a pollution-free planet can boost global GDP, save lives, and reduce poverty. It warns of grave risks from current paths but outlines a better course- transforming economies, energy, food, and waste systems through inclusive, knowledge-based action, with long-term gains far outweighing the costs.
