NUMBER OF COUNTRIES BY REGION (by status of their contribution)

The Environment Fund is vital to UNEP's work on keeping the environment under review. For example, it supports the **World Environment Situation Room** – a dynamic platform that brings together the world's best environmental science and research, as well as the mass of new data from satellites, drones and citizen science.

** Amounts based on pledges, to be confirmed at the time of payment including possible effect of exchange rate fluctuation*
*** Based on percentage increase from previous year's contribution*
**** full share as per the Environment Fund Voluntary Indicative Scale of Contributions (VISC)*

USA does not participate in VISC and is not a member of any regional group. However, since USA attends Western Europe & Other Group meetings as an observer, their contributions are reported as part of the WEOG summary.
