Theme	#	Question	Answer	Points	Answer Criteria	Supporting Evidence
1. Political Commitment	1.1	Is there a clear political statement at the highest level of government demonstrating commitment to PCSD? <i>For example, an explicit commitment to PCSD in national strategic documents, policies or legislation, including at sectoral level.</i>	In place, fully implemented	4	There is a clear political statement at the highest level of government demonstrating commitment to PCSD, implemented in all relevant aspects of governance. (e.g. The government has made a clear political statement at the highest level, demonstrating commitment to PCSD. The political leadership actively promotes PCSD and supports sustainable development goals, ensuring that policies, laws and institutional arrangements align with these goals, including at sectoral level, as applicable. This commitment is translated into concrete mechanisms and actions across all relevant sectors and policies. This includes integrating PCSD into relevant policies and legislative frameworks, strategic planning, and operational activities, fostering a culture of sustainability throughout the government. Stakeholders are engaged, public support is mobilised, and robust monitoring and evaluation mechanisms are in place to track progress and ensure accountability.)	HRH the Crown Prince and the Prime Minister made a clear political statement in Bahrain's VNR 2023 - can be found in page 4: https://sdgs.gov.bh/PDFfiles/EN/VNR%202023%20Bahrain%20Report_1.pdf * Economic Vision 2030 – sustainability is one of three pillars guiding all government strategies and long-term planning: https://www.bahrain.bh/wps/portal/en/BNP/BahrainATAGLance/Bahrain2030 * Government Plan 2023-2026 – embeds sustainability, environment, economic recovery, and quality public services as core axes in national development: https://www.bahrain.bh/wps/portal/en/BNP/HomeNationalPortal/ContentDetailsPage/%2Lu/p/10/t0/USNT8AJAEPO46HnnQK1ekQgIAINcbAXsIOHdq/VWz2bvh99-KhDEBX0_p0VaaHBVBSMEJnnVppPn5ncPUOQz8mkxGfT6_pYbGdLSv0rW1YpR8TfKlx3GWLWJc38NSut00ICyeb4Pa5TLWSL8cb0Hw4MMRlcn2pM5szWTDVXBnR0bCwCcG3tpuqGntgs18Nwdt_-__ecpdhYDUDECqVemaCcs3seGIUBrSYCKhCvv4Hzf3L-6SanZqPPEVg-_9spo2AK%21%21/ * The National Taskforce for Information and Population – established by Edict (56) of 2023, chaired by Minister of Cabinet Affairs, mandated to oversee accuracy and updating of all national indicators and SDG data, ensuring coordination across ministries: https://www.bna.bh/en/HRHtheCrownPrinceandPrimeMinisterissuesEdict56of2023.aspx?cms=q8FmJgiscL2fwtl0N1%2BDE06H0UOSwI85frn%2FC5pLJK3D * Ministry of Sustainable Development – established to promote and oversee the integration of SDGs into national planning, acting as the central coordinating entity for sustainable development policies:
	1.2	Has the government defined clear national priority areas for advancing PCSD? <i>For example, clear priority areas for addressing issues where trade-offs need to be managed or potential transboundary impacts need to be addressed, defined within a national policy, strategy, law or action plan for advancing sustainable development.</i>	In place, fully implemented	4	The government has defined clear national priority areas for advancing PCSD, and these are implemented covering all relevant aspects of governance. (e.g. The defined priorities are integrated into sectoral policies, strategies, and time-bound action plans, guiding efforts to achieve sustainable development goals, capitalising on synergies across sectors and considering potential transboundary impacts of policies. There is active coordination across sectors to align initiatives with these priorities, fostering an integrated approach throughout the government.)	
	1.3	Has the government defined clear institutional roles and responsibilities for promoting, overseeing, and implementing PCSD? <i>For example, a law or administrative directive has established a central unit, ministry, or inter-ministerial committee that has the mandate to promote, oversee or implement PCSD.</i>	In place, fully implemented	4	The government has defined clear institutional roles and responsibilities for promoting, overseeing, and implementing PCSD. In practice, these roles are comprehensively implemented in all relevant aspects of governance. (e.g. A lead institution has been established with clear mandates to promote and oversee the implementation of PCSD across the government. The mandates and role of this institution are well known throughout the government in different sectors and at different levels.)

2. Long-term Vision	2.1	Has the government developed a strategic long-term vision for sustainable development to enhance policy coherence? <i>For example, a national vision statement, policy, strategy or action plan that sets objectives to identify, prevent, and mitigate actual and potential adverse impacts of decision-making on the wellbeing and sustainable development of future generations.</i>	In place, fully implemented	4	The government has developed a strategic long-term vision for sustainable development to enhance policy coherence, which is implemented in all relevant aspects of governance. (e.g. A long-term vision or strategy is in place establishing long-term goals and targets for sustainable development and guiding short-term decision-making to consider the wellbeing and sustainable development of future generations. This strategic vision is integrated into all relevant sectoral strategies and policies and translated into concrete actions to identify, prevent, and mitigate potential adverse impacts on future generations. This process involves engaging stakeholders, securing legislative and public support, and developing robust monitoring and evaluation frameworks.)	* Bahrain's economic vision 2030 which is shaped by three guiding principles: Sustainability, Fairness, and Competitiveness: https://www.bahrain.bh/wps/portal/en/BNP/BahrainATAGLance/Bahrain2030 * Bahrain Government Plan (2023 – 2026), the plan is based on establishing principles of Sustainability, Competitiveness, and Justice: https://www.bahrain.bh/wps/portal/en/BNP/HomeNationalPortal/ContentDetailsPage/%2Lu/p/11/Vr6dcWfP0r9KGPTCAJHBKX51K5Krbxg0KRMCA4CFPXfLzg7WqrTQ-bl2TyOT333DMX8egFBZLIRMyYCrLqvsyoK_GwIck * Economic vision 2030 – the long-term national strategy guiding policies with sustainability as a pillar, ensuring alignment of sectoral policies with future development goals: https://www.bahrain.bh/wps/portal/en/BNP/BahrainATAGLance/Bahrain2030 * Government Plan 2023-2026 – Integrating sustainability, environment, and economic recovery to ensure coherence in current and future policies with periodic progress review at the level of HRH the Crown Prince and Prime Minister: https://www.bahrain.bh/wps/portal/en/BNP/HomeNationalPortal/ContentDetailsPage/%2Lu/p/10/t0/USNT8AJAEPO46HnnQK1ekQgIAINcbAXsIOHdq/VWz2bvh99-KhDEBX0_p0VaaHBVBSMEJnnVppPn5ncPUOQz8mkxGfT6_pYbGdLSv0rW1YpR8TfKlx3GWLWJc38NSut00ICyeb4Pa5TLWSL8cb0Hw4MMRlcn2pM5szWTDVXBnR0bCwCcG3tpuqGntgs18Nwdt_-__ecpdhYDUDECqVemaCcs3seGIUBrSYCKhCvv4Hzf3L-6SanZqPPEVg-_9spo2AK%21%21/ * Ministry of sustainable Development – established with a mandate to oversee and coordinate SDG integration across ministries https://www.bahrain.bh/wps/portal/en/BNP/ExploreBahrain/SustainableDevelopment * The National Taskforce for Information and Population – created by Edict (56) of 2023, chaired by the Minister of Cabinet Affairs, with a mandate to assure accuracy and updating of national indicators and SDG data across all sectors, ensuring sustained coherence: https://www.bna.bh/en/HRHtheCrownPrinceandPrimeMinisterissuesEdict56of2023.aspx?cms=q8FmJgiscL2fwtl0N1%2BDE06H0UOSwI85frn%2FC5pLJK3D
	2.2	Does the government use long-term strategic planning tools to enhance policy coherence? <i>For example, the use of tools such as impact assessments, strategic foresight, scenario development, integrated modelling tools or systems-thinking approaches in the formulation and implementation of strategies and policies to identify, prevent, and mitigate potential adverse impacts on the wellbeing and sustainable development of future generations.</i>	In place, fully implemented	4	The government uses long-term strategic planning tools to enhance policy coherence, and these are implemented covering all relevant aspects of governance. (e.g. The government commonly uses long-term strategic planning tools (e.g. impact assessments, strategic foresight, scenario development, integrated modeling tools, or systems-thinking approaches) in formulating and implementing strategies and policies. These tools help identify, prevent, and mitigate potential adverse impacts on the wellbeing and sustainable development of future generations. These tools are proactively used to inform policy- and decision-making.)	
	2.3	Has the government established dedicated institutional arrangements or mechanisms to support a long-term vision for PCSD? <i>For example, independent bodies, a commissioner, council, or ombudsperson for future generations, can promote long-term vision for PCSD that outlives electoral cycles or government terms.</i>	In place, fully implemented	4	The government has established dedicated institutional arrangements or mechanisms to support a long-term vision for PCSD. Their tasks are comprehensively implemented covering all relevant aspects of governance. (e.g. The government has established a dedicated body with clear mandates and resources to ensure its commitment to PCSD extends beyond electoral cycles and government terms. This body has clear objectives, adequate resources, and supports effective communication, strong leadership, stakeholder engagement, and coordination across Ministries or departments. It also has robust monitoring and evaluation systems and the flexibility to adapt to changing circumstances.)

3. The Integration of Sustainable Development into Policy and Finance	3.1	Does the government have a budgetary process that integrates sustainable development into sectoral policies, and to address synergies and trade-offs across economic, social and environmental policy areas? <i>For example, through the use of SDG budgeting (i.e. tagging budget measures, etc.) or checklists.</i>	In place, fully implemented	4	The government has developed a budgetary process to integrate sustainable development into sectoral policies, and to address synergies and trade-offs across economic, social and environmental policy areas. Sustainability considerations are integrated in all phases of the budgetary process. (e.g. Sustainable development is effectively integrated into sectoral policies through budgetary process (e.g. budget formulation, approval, execution, oversight), promoting synergies across policy sectors, strategically balancing resource allocations for economic, social and environmental goals, and fostering collaboration and coordination between government departments and agencies.)	* Bahrain has integrated sustainable development into its budgetary process, using SDG-aligned fiscal planning, budget tagging, and expenditure frameworks that address synergies and trade-offs across sectors: * Ministerial Committee for Financial and Economic Affairs and Fiscal Balance – established by Prime Minister Decision No. (42) of 2018, mandated to oversee the state budget, national economic plans, and fiscal balance: https://www.bahrain.bh/wps/portal/en/BNP/HomeNationalPortal/ContentDetailsPage/%2Lu/p/10/t0/tc1BSS8NAEXgV7lecpsZTrboSa1Qf0LqQeIwQZ9NtmZ9Ltt0t_NAUXfbcHj--Bhwq80UCGsghCw9Tf_aqeP574X4L-bahrain -bahrain has integrated sustainable development into its budgetary process, using SDG-aligned fiscal planning, program-based budgeting, and modelling tools that address synergies and trade-offs across sectors.
	3.2	Does the government have dedicated mechanisms or tools to integrate sustainable development into the sectoral or financing plans of line ministries? <i>For example, strategies, guidelines, regulations, provisions or coordination mechanisms for ministries and government agencies to align their mandates, policies and sectoral objectives with sustainable development priorities.</i>	In place, fully implemented	4	The government has developed dedicated mechanisms and tools to integrate sustainable development into the sectoral and financing plans of line ministries. These mechanisms have been comprehensively implemented, covering all relevant aspects of governance. (e.g. Established mechanisms and tools have ensured that sustainable development priorities are integrated into every sector and financial plan, contributing to effective progress towards sustainable development goals. These mechanisms and tools also foster a culture of sustainability across all levels and sectors of government, driving continuous improvement and innovation in sustainable development practices.)	* Ministerial Committee for Financial and Economic Affairs and Fiscal Balance – established by Prime Minister Decision No. (42) of 2018, mandated to oversee the state budget, national economic plans, and fiscal balance. By coordinating fiscal and economic tasks across ministries and monitoring budget implementation, the committee provides an institutional mechanism to integrate sustainable development priorities into sectoral policies and address synergies and trade-offs * Public-Private Partnerships – MoFNE provides a PPP manual and framework to mobilise private investment in public projects: https://www.mofne.gov.bh/en/project-initiatives/public-private-partnerships/
	3.3	Does the government have established mechanisms or measures to promote the mobilisation of public, private, domestic, and international resources for sustainable development? <i>For example, specific programmes or policies informed by policy coherence to enhance the contribution of domestic resources to sustainable development; incentives or frameworks to attract private investment for sustainable development projects; partnerships between the government and private sector to finance sustainable development initiatives, etc.</i>	In place, fully implemented	4	The government has established mechanisms and implemented measures to promote the mobilisation of financial resources to support PCSD. These have been comprehensively applied, covering all relevant aspects of governance. (e.g. The established mechanisms and implemented measures have resulted in specific programs or policies that enhance the contribution of domestic resources to sustainable development, or have created incentives to attract private investments for sustainable development or fostered public-private partnerships that support the mobilisation of financial resources to advance sustainable development.)	* PPP legal basis – Edict No. (30) of 2022 issues the Guide regulating partnerships between public and private sectors and assigns MoFNE to implement it: https://www.moi.gov.bh/sites/default/files/2023-12/Resolution%20No.%20%2830%29%20for%20the%20year%202022%20for%20issuing%20a%20Guide%20Regulating%20Partnerships%20between%20Public%20and%20Private%20Sectors.pdf

4. Whole-of-government Coordination	4.1	Has the government established high-level coordinating mechanisms with clear mandates to ensure whole-of-government coordination for PCSD, including at sectoral level? For example, a high-level coordinating mechanism or body whether located within the Centre of Government or a lead line ministry as appropriate, with a clear mandate, resources and capacities to anticipate and resolve policy divergences, including on potential negative impacts of policies, and tensions arising from diverging priorities and different sectoral interests.	In place, fully implemented	4	The government has established high-level coordinating mechanisms with clear mandates to ensure whole-of-government coordination for PCSD, including at sectoral level. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. A high-level coordinating mechanism operates regularly to support whole-of-government coordination for Policy Coherence for Sustainable Development (PCSD). This mechanism has a clear mandate, adequate resources, and the capacity to anticipate and resolve policy divergences, including potential negative impacts of policies and tensions arising from diverging priorities and different sectoral interests.)	Bahrain has established high-level coordinating mechanisms with clear mandates to ensure whole-of-government coordination for PCSD, including across sectoral policies. * Government Executive Committee (ExCo) – chaired by HRH the Crown Prince and Prime Minister, acts as the central government body coordinating national priorities and cross-ministerial policies to ensure coherence and resolve divergences. https://www.pmo.gov.bh/en/category/about-his-royal-highness * Ministerial Committee for Financial and Economic Affairs and Bahrain has formal inter-ministerial mechanisms that enable communication across ministries to address cross-cutting policy objectives and integrated solutions.
	4.2	Are there formal governance structures or informal channels in place to support communication between sectoral ministries and departments for enhancing PCSD? For example, inter-ministerial committees that stimulate open exchange of ideas and innovative thinking to address cross-cutting policy objectives and develop integrated solutions.	In place, fully implemented	4	The government has established formal governance structures or informal channels to support communication between sectoral ministries and departments for enhancing PCSD. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. The establishment of these structures and channels has led to improved collaboration, coordination, and information sharing across all sectors of government. This has strengthened the alignment of policies with the Sustainable Development Goals and fostered a culture of continuous improvement and innovation in public administration.)	* Government Executive Committee (ExCo) – PMO states HRH presides over ExCo, which oversees government work and programmes, sets government priorities, and monitors delivery across ministries. https://www.pmo.gov.bh/en/category/about-his-royal-highness * Ministerial Committee for Financial and Economic Affairs and Fiscal Balance – official portal lists its formation by PM Decision. All government employees are mandated to get a minimum hours of training every year, below are some of the key programs that have SDGs embedded in them:
	4.3	Are there specific capacity-building programs or other resources in place for public servants, government officials, or staff to enhance policy coherence for sustainable development? For example, to improve skills that take civil servants beyond their traditional operating environment and challenge them to think and act in new, cross-disciplinary ways to foster coherence in policymaking.	In place, fully implemented	4	The government has developed capacity-building programs or other resources for public servants, government officials, or staff to enhance policy coherence for sustainable development. These programmes have been fully implemented, covering all relevant aspects of governance. (e.g. Competency frameworks have been designed to target cross-disciplinary knowledge and skills to foster coherence in policymaking. Training has been developed to strengthen these skills, and rolled out to all relevant civil servants.)	* Bahrain Institute of Public Administration (BIPA) embeds the sustainable development goals in all its programs. https://www.bipa.gov.bh/en/bahrain-institute-of-public-administration-embeds-the-sustainable-development-goals-in-all-its-programs/ ** BIPA Training Services – BIPA offers national leadership, specialized programs, workshops, and courses for government employees. https://www.bipa.gov.bh/en/training/

5. Sub-national Engagement	5.1	Are there provisions or mechanisms in place to align national and sub-national plans, policies, budgets, or regulatory frameworks for sustainable development? For example, National Sustainable Development Strategies outline relevant action and mandate sub-national engagement; or data exchanges and other engagements between government levels are institutionalised in other ways.	In place, fully implemented	4	The provisions or mechanisms are in place to align national and sub-national plans, policies, budgets, and regulatory frameworks for sustainable development. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. National Sustainable Development Strategies are territorialised at the sub-national level and complemented by local indicators and monitoring systems on sustainable development objectives. Best practices and common challenges are documented, shared and incorporated across government levels, promoting continuous improvement. These mechanisms are effectively used to engage sub-national levels of government in PCSD and to promote coordinated action on relevant economic, social and environmental goals.)	His Royal Highness the Crown Prince and Prime Minister issued a decision establishing and forming the Committee for Cooperation between the Capital Trustees Board, Municipal Councils, and Government Entities in March 2023. The committee is tasked with ensuring alignment between the plans of the Capital Trustees Board and municipal councils and the programs of government entities. https://www.bna.bh/asp?cms=q8FmFJgscL2fwzON1%2BD4wEH20sEIK2F7OHJaoI7k%3D * Government Plan 2023–2026 – medium-term action plan implementing Vision 2030; includes sectoral strategies, budgets, and services that line ministries and sub-national entities are engaged in.
	5.2	Are there formal governance structures or informal channels in place to support communication between national and sub-national levels of government for enhancing PCSD? For example, interterritorial commissions, the participation of local governments in National Councils for the 2030 Agenda, and focal points for the implementation of SDGs at the regional and local level.	In place, fully implemented	4	The government has established formal governance structures or informal channels to support communication between national and sub-national levels of government. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. Platforms such as interterritorial commissions are in place to collect inputs from subnational entities and initiate formal exchanges between government levels. These mechanisms are active and stimulate open exchange of ideas and innovative thinking to address cross-cutting policy objectives and facilitate multi-level dialogue around success stories and persistent challenges.)	His Royal Highness the Crown Prince and Prime Minister issued a decision establishing and forming the Committee for Cooperation between the Capital Trustees Board, Municipal Councils, and Government Entities in March 2023. The committee is tasked with ensuring alignment between the plans of the Capital Trustees Board and municipal councils and the programs of government entities. https://www.bna.bh/asp?cms=q8FmFJgscL2fwzON1%2BD4wEH20sEIK2F7OHJaoI7k%3D * Government Executive Committee (ExCo) – Oversees government work and programmes, sets government priorities, monitors vital projects, resolves referred issues.
	5.3	Are there mechanisms or processes in place to ensure coordinated action between national and subnational agencies on international initiatives or development co-operation for sustainable development? For example, national agencies provide advisory services, networks, or matchmaking for sub-national entities engaging in international initiatives or development cooperation.	In place, fully implemented	4	The government has established mechanisms or processes to coordinate national and sub-national action on international initiatives or development cooperation for sustainable development. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. For example, national agencies provide advisory services, networks, or matchmaking for sub-national entities engaging in international initiatives or development cooperation. Multi-level and multi-stakeholder partnerships connect actors and help exchange best practices, and support is well matched to demand and local context.)	His Royal Highness the Crown Prince and Prime Minister issued a decision establishing and forming the Committee for Cooperation between the Capital Trustees Board, Municipal Councils, and Government Entities in March 2023. The committee is tasked with ensuring alignment between the plans of the Capital Trustees Board and municipal councils and the programs of government entities. https://www.bna.bh/asp?cms=q8FmFJgscL2fwzON1%2BD4wEH20sEIK2F7OHJaoI7k%3D The government has established mechanisms to coordinate national and sub-national action on international initiatives and development cooperation for sustainable development. These mechanisms have been fully implemented, covering all relevant aspects of governance.

6. Stakeholder-engagement	6.1	Are there participatory mechanisms in place to ensure stakeholders are informed and engaged proactively in different phases of the policy cycle for sustainable development, or in the development of PCSD initiatives through a whole-of-society approach? For example, dedicated laws, public consultations, advisory committees, focus groups, online platforms, regular meetings or other means enable engagement and participation in decision-making making, to gather feedback, address coherence issues, and collaborate on solutions involving different levels of society.	In place, fully implemented	4	The participatory mechanisms are in place for stakeholder engagement in sustainable development policy-making through a whole-of-society approach, and in the development of PCSD initiatives, and these mechanisms are fully implemented through participatory approaches. (e.g. Dedicated forums and opportunities are in place to develop recommendations for enhancing policy coherence and to provide analytical and strategic input on sustainable development, supported by dedicated normative provisions. Engagement concerns relevant representatives from civil society, academia, the private sector and trade- and employers' unions, in coordination with government Ministries. Consultations are mandated to take place in a comprehensive manner at various stages of the policy cycle. Preparatory information and feedback on the outcomes of the process is provided to involved stakeholders.)	Bahrain has established participatory mechanisms that proactively engage stakeholders in different phases of the policy cycle for sustainable development, ensuring a whole-of-society approach. * Vision 2030 - His Royal Highness the Crown Prince and Prime Minister directed the commencement of consultations, with the Legislative Authority, the private sector, professional institutions, and civil society organisations, to draft the Bahrain Economic Vision 2030. https://www.crownprince.bh/en/news/75840/
	6.2	Are there mechanisms in place to reach out to marginalised and vulnerable groups in society and advocate for their needs and participation in decision-making to advance inclusive sustainable development? For example, to consult or engage different groups as co-designers on action plans that mainstream, in an integrated manner, the principle of leaving no one behind in public policies and reform measures, placing emphasis on targeted measures which support those who are furthest behind and promote human rights, gender equality and social inclusion.	In place, fully implemented	4	The government has established mechanisms to reach out to marginalised and vulnerable groups in society and advocate for their participation in decision-making, to advance inclusive sustainable development. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. These initiatives have been rolled out to key marginalised and vulnerable groups. Findings have been fed back into strategies designed to advance inclusive social and economic development, such as action plans that mainstream, in an integrated manner, the principle of leaving no one behind in public policies and reform measures, placing emphasis on targeted measures which support those who are furthest behind and promote human rights, gender equality and social inclusion.)	* National Dialogue & Shura Council/Parliamentary process – the government has established mechanisms to reach out to marginalised and vulnerable groups in society and ensure their participation in decision-making for inclusive sustainable development. These mechanisms reflect the SDG principle of "leaving no one behind" by targeting specific groups – women, persons with disabilities, youth, migrants, and civil society – and mainstreaming their voices into policies, reforms, and international reporting.
	6.3	Has the government put mechanisms in place to promote stakeholder engagement in policy coherence for sustainable development at various levels of governance, to advance best practice and encourage peer learning? For example, engagement through global or national campaigns, policy dialogues, intergovernmental processes, capacity building initiatives, and societal mobilisation.	In place, fully implemented	4	The government has worked with various stakeholders on initiatives to raise public awareness, mobilise support, and advocate for policy coherence for sustainable development at various levels of governance. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. The government has worked with stakeholders to support their engagement in a wide range of initiatives on sustainable development issues. Specific campaigns have been designed and delivered to build consensus on priorities for enhancing policy coherence for sustainable development and they have been promoted in international settings to advance best practice and encourage peer learning.)	* Supreme Council for Women (SCW) – institutionalised by Royal Decree as the national authority on women's affairs, SCW ensures women's needs and perspectives are mainstreamed across all national policies and strategies. It is the Ministry of Sustainable Development – stakeholder and media engagement to mobilise public support for SDGs (meeting with editors-in-chief; national outreach on SDG progress and priorities). https://www.bna.bh/en/MinisterofSustainableDevelopmentholdsmeeingwitheditorsinchief.aspx?cms=q8FmFJgscL2fwzON1%2BD1QKChpTNEH0U1gh33%3D * Ministry of Sustainable Development – technical SDG workshops with government entities and partners (e.g., environment–health indicators; ICT/ITU indicators) that build shared methodologies and coherence across sectors. https://www.bna.bh/en/SustainableDevelopmentMinistryhold

7. Impact Assessment	7.1	Does the government have any mechanisms or tools in place to conduct regular policy impact assessments to identify any positive and negative impacts on sustainable development? <i>For example, established tools such as cost-benefit analysis, indicator frameworks for tracking policy effectiveness, or other tools such as Regulatory, Environmental, Gender and Social Impact, and Strategic Assessments are regularly used across government sectors to evaluate and align policies with sustainable development objectives.</i>	In place, fully implemented	4	The government has developed mechanisms or tools to conduct regular policy impact assessments to identify any positive and negative impacts on sustainable development. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. The government has integrated principles of sustainable development into Regulatory Impact Assessments, and made these mandatory for legislative proposal by ministries. Available data is used to measure impact and make informed decisions on resource allocation, performance improvement, incentive changes and cost reductions. This leads to an important feedback loop for the policy design and delivery phases. Sufficient technical capacity and methodological skills have been built to facilitate the use of these impact assessment tools.	Yes – the government has put mechanisms in place to promote stakeholder engagement in policy coherence for sustainable development at various levels of governance, encouraging peer learning and exchange of best practice. * Ministry of Sustainable Development – leads multi-stakeholder engagement through the preparation of the Voluntary National Reviews (VNRs) and participation in the UN Sustainable Development Cooperation Framework (UNSDCF), which bring together government, civil society, academia, private sector, and youth. These processes enable national dialogue and peer learning across sectors and with international partners. * Environmental Impact Assessment (EIA) Guideline – Supreme Council for Environment issues the national EIA Guideline and procedures applied before major project approvals. https://www.sce.gov.bh/en/Overview?cms=iQRpuephYU6pyXUGiNqmbRIZXuWQXF * Basel Convention implementation – SCE licenses the export of wastes outside Bahrain for treatment/dismposal, operationalising transboundary impact controls and prior approvals. https://www.sce.gov.bh/en/ExportingWasteAbroad?cms=iQRpuephYU6pyXUGiNq4yFZX70Gnc * Bahrain Institute of Public Administration (BIPA) – national training for civil servants in policy design, strategic analysis, and evidence-based management (programmes, workshops, courses), some of those programs are mandatory on all public servants, the programs takes into account sustainability and awareness for sustainability https://www.bipa.gov.bh/en/training/ * BIPA Master in Public Management, which has a big part for sustainability in management https://www.bipa.gov.bh/en/mpm/ * BIPA e-Courses – government staff access analytical and
	7.2	Has the government established ex-ante and ex-post policy impact assessments that consider transboundary impacts? <i>For example, established tools such as cost-benefit analysis, transboundary impact assessments, multistakeholder consultations, indicator frameworks or other tools are regularly used across government sectors to evaluate the transboundary impacts of policies on sustainable development.</i>	In place, fully implemented	4	The government has established ex-ante and ex-post policy impact assessments that consider transboundary impacts. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. Established tools such as transboundary impact assessments, spillover analysis frameworks, or multi-stakeholder consultations are used to regularly assess international implications of government policies. There is effective use of these mechanisms to facilitate informed decision-making in the policy and planning process.)	
	7.3	Does the government have any mechanisms in place to build capacity in the public service to collect and analyse evidence on how different policies, laws or regulations impact sustainable development? <i>For example, training designed to allow civil servants to strategically address positive and negative impacts of policies, laws or regulations on sustainable development.</i>	In place, fully implemented	4	The government has mechanisms in place to provide capacity building for the public service to collect and analyse evidence on how different policies, laws or regulations impact sustainable development, and these initiatives have been fully implemented and rolled out to civil servants. (e.g. Training designed to allow civil servants to strategically address positive and negative impacts of policies on sustainable development, rolled out to all relevant staff. Competency frameworks have been developed to identify and strengthen the right skills of public servants, to make civil servants fit to deliver on national objectives on sustainable development.)

8. Monitoring, Evaluation, and Reporting	8.1	Does the government have any information management systems or similar mechanisms in place to coherently identify and centralise data, indicators and (or) other information for monitoring progress on sustainable development? <i>For example, centralising existing reliable data, indicators, and information to monitor economic, social, and environmental externalities imposed beyond national borders (transboundary impacts).</i>	In place, fully implemented	4	The information management systems or similar mechanisms exist, and the government has identified data, indicators and (or) other information to monitor transboundary impacts. These mechanisms have been fully implemented, covering all relevant aspects of governance. (e.g. The government has identified reliable and timely data and indicators to effectively monitor progress on sustainable development. Information management systems or their mechanisms are in place and they facilitate the public availability, accessibility and comparability of centralised and harmonised data on sustainable development. This may include indicators used to monitor trends in based on income and resources flows that impact the well-being of people in other countries.
