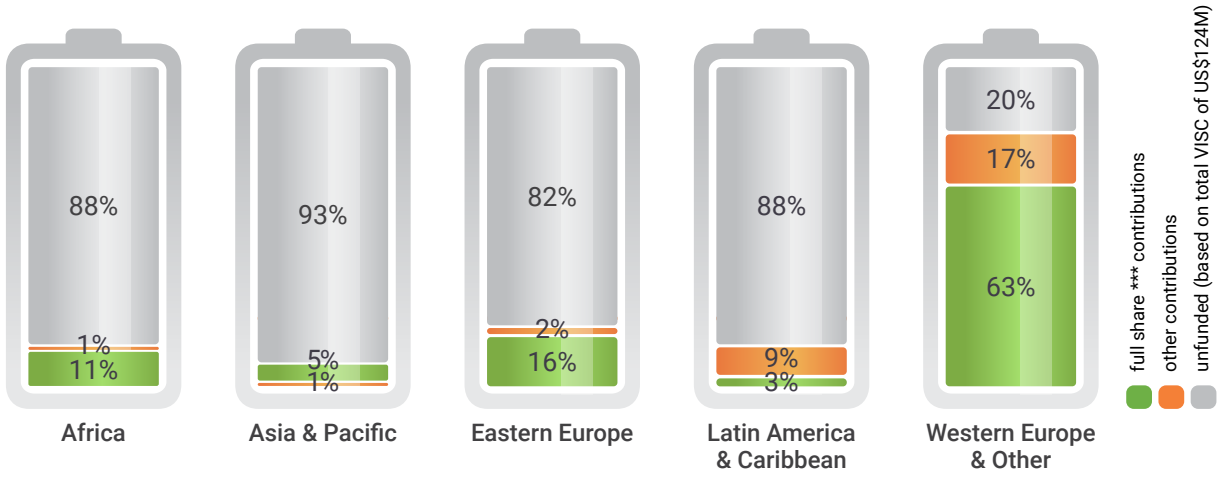
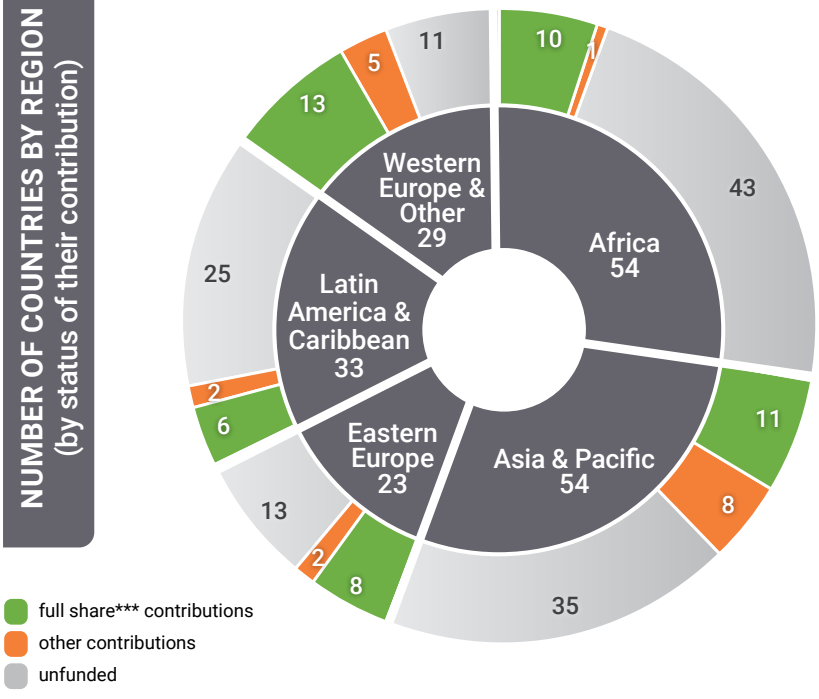
2023

El Salvador

CONTRIBUTIONS AT REGIONAL LEVEL (in % of total funds requested)



NUMBER OF COUNTRIES BY REGION (by status of their contribution)



Supported by the Environment Fund, The *Frontiers Report* identifies emerging environmental issues that, while currently localized or small-scale, could escalate into global crises if left unaddressed. The 2025 edition, **The Weight of Time – Facing a new age of challenges for people and ecosystems**, highlights key challenges and stresses the importance of early intervention.

** Amounts based on pledges, to be confirmed at the time of payment including possible effect of exchange rate fluctuation*
*** Based on percentage increase from previous year's contribution*
**** full share as per the Environment Fund Voluntary Indicative Scale of Contributions (VISC)*

USA does not participate in VISC. Their contributions are reported as part of the WEOG summary.
