

Debris associated with verified damaged cultural
heritage sites is estimated at 264,597 tonnes.

This estimate remains subject to field verification.

Of the Gaza Strip's 350 cultural heritage sites, comprising archaeological sites as well as historic buildings, UNESCO had assessed 166 by July 2025 and confirmed damage at 110.

This map presents preliminary estimates of cultural heritage debris quantities for those 110 verified damaged sites only.

- Governorate's Boundaries
- Gaza Strip Border
- Areas with assessed cultural heritage sites
- Areas with unassessed cultural heritage sites

Estimated debris quantities
(tonnes)

- < 500
- 500 - 1,000
- 1,000 - 2,500
- 2,500 - 5,000
- 5,000 - 10,000
- 10,000 - 20,000
- > 20,000
