Statement by Brazil on the proposed themes for the 2017 UN Environment Assembly

In response to the letter from the President of UNEA, and as already indicated during the subcommittee meeting held on 17 November, Brazil favors a theme for UNEA-3 focused on pollution. We would like, however, to avoid the proposed formulation of "Pollution Free Planet: Delivering a deal to detoxify the world". Brazil suggests framing the theme in the following manner: "It's time to clean our planet: reversing the curve on pollution".
