Achieved

201

Target: 146

Number of actors that
adopt climate change
strategies and policies.

Achieved

US\$937.68M

US\$672.39B

Target: (a) US\$755M (b) US\$ 451B

Amount mobilized per year for
climate action
(a) US\$ Invested for climate
action
(b) US\$ of decarbonized assets

Achieved

156

Target: 115

Actors reporting
enhanced transparency
arrangements

Nature Action 2024: Supporting countries in integrated approaches, conservation and restoration

Achieved
108

Target: 46

Number of entities
**adopting integrated
approaches** to address
environmental and social
issues.

Achieved
221

Target: 177

Number of actors
**incorporating biodiversity
and ecosystem-based
approaches.**

Achieved
11,205,281ha

Target: 2,880,000 ha

Increase in **territory of
land- and seascapes
under improved
ecosystem conservation
and restoration.**

Chemicals and Pollution Action 2024: reducing chemicals, waste and pollution

Partially Achieved
300

Target: 329

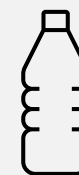

Number of Governments acting to **promote sound chemicals and waste management.**

Achieved
159

Target: 125

Number of measures developed to **reduce pollution in air, water, soil and the ocean.**

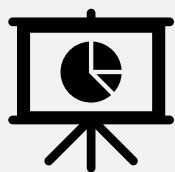

Partially Achieved
3,298 Tons

Target: 3,500 tons

Reduced release of pollutants to the environment

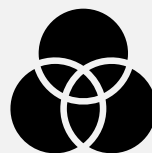

Science-Policy 2024: Strengthening capacity for data, science and early warning systems.

Achieved
110

Target: 100

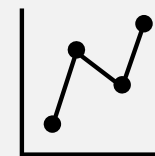

Number of authorities with **strengthened capacity to develop sound environmental data.**

Achieved
170

Target: 148

Number of actors **using data, statistics, scientific assessments and early warning and foresight systems.**

Achieved
22

Target: 20

Number of **UN agencies and MEA secretariats** using data and statistics on environmental trends and assessments.

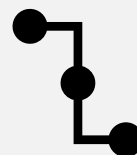

Environmental Governance 2024: Supporting countries in implementing environmental rule of law

Achieved
134

Target: 134

Number of countries **developing/ implementing environmental rule of law** to address internationally agreed environmental goals.

Achieved

Target: 62

Number of **international legal agreements or instruments advanced** to address emerging environmental issues.

Achieved
314

Target: 264

Number of **policies and strategies** at various government levels include environmental goals.

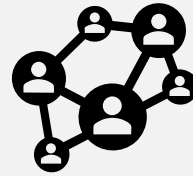

Finance and Economic Transformation 2024: Helping transform finance, businesses and consumers.

Achieved
177

Target: 159

Number of **finance and economic initiatives** put in place or implemented to enable just transitions.

Achieved
1267

Target: 1248

Number of **business alliances and frameworks** established or adopted to enhance environmental sustainability

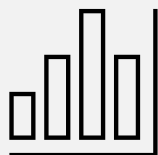

Achieved
403

Target: 331

Number of **consumer information tools and advocacy measures** that inform decision-making towards enhanced environmental sustainability.

Digital Transformation 2024: Supporting platforms, businesses and governance

Achieved
13

Target: 8

Number of **digital platforms** deployed for automatically **monitoring global progress against climate, nature, and chemicals and pollution targets.**

Achieved
14

Target: 7

Number of **business alliances and networks** leveraging environmental data and digital transformation approaches.

Achieved
18

Target: 8

Number of **digital platforms** developed to improve governance and digital inclusion in environmental monitoring and decision-making.

UNEP: Effective leadership and management

Driving Global Change

Key decisions made during UNEA 6 and HLPPF

A Gender Equality Champion

94% of the UN-SWAP indicators attained

Strategic Impactful Partnerships

Mobilized USD\$ 269.8 M

Better Oversight

Reduction of outstanding audit recommendations

Lesson Learned from the US\$2.5 Bn portfolio: Delivering, integrating and measuring better.

1. **Integrate better at country level:** Strengthen integration of environment into **country development frameworks**.
2. **Strengthen country delivery:** Implement recommendations from the formative evaluation of delivery model.
3. **Measure better:** Strengthen implementation, learning and longitudinal measurement frameworks and systems for 2026–2027 PoW and future programmes.
