ICCM4 Lead Paint Alliance Side Event

Building Momentum Toward Global Lead Paint Elimination by 2020:

DRAFT AGENDA

TUESDAY 29 September 2015 [1]
13:15 to 15:00 @ Conference Room 18 (CICG)

Brief Description

Lead in paint is an emerging policy issue under SAICM, and governments, industry and other stakeholders are actively working toward a global phase out of lead in paint. The Global Alliance to Eliminate Lead Paint, now commonly known by its short name of the Lead Paint Alliance, was established in 2009.

This side event will review the current efforts of the Alliance and discuss how it proposes to address the elimination of the use of lead paint by 2020.

Proposed Timing	Agenda item	Presenter
	INTRODUCTION	
13.15- 13.20	Welcome Remarks	UNEP DTIE (tbc)
13.20-13.25	Why lead paint is still a problem?	Joanna Tempowski, Scientist, International Programme on Chemical Safety, Evidence & Policy on Environmental Health, WHO

[1] Revised as 25 September 2015. Subject to change as necessary.
