

ADJUSTMENTS PROPOSED BY CHILE TO THE 2° DRAFT OF THE MINISTERIAL DECLARATION FOR UNEA6 IN PARAGRAPH 10

Para 10c: Reference to just transition end of para, deleting last 3 lines. Proposed wording: “considering equitable access to clean energy, secure and resilient development of sustainable energy infrastructure, promoting a just transition based on effective social dialogue and cooperation among all stakeholders”.

Para 10d: Reference to polluter pays principle. Proposed wording: “Deploy greater efforts, including mobilizing and allocating adequate resources under the polluter pays principle, to enhance...”

Para 10f: Reference to Climate and Clean Air content. Proposed wording:” Enhance broader cooperation to address air pollution, significantly reducing powerful but short-lived climate pollutants, including through the One Health approach, recognizing that air pollution is the leading environmental risk factor for human health, as well as a significant factor of climate change and which contributes to negative impacts on ecosystems and transcends national borders, to achieve benefits to ecosystems, climate, human health and the economy.”
